To Whom It May Concern:

I am glad to give this reference for Scott Sampson. I have been both a vendor and a client with him and we have had a strong working relationship for the last 10 years. Working with Scott is always a pleasure. He is very knowledgeable about the telecom industry. He has the ability to map out his network needs and relay them to the order department in a very simplified manner. All of my employees enjoy speaking with Scott due to his very friendly demeanor. Scott is aware of technology trends and is willing to ask questions to understand new products.

I have watched Scott build a small ISP into being one of the largest networks within the state. The network he has built is one of the most stable and I am comforted to know that my network is safe within his hands.

I highly recommend Scott for any position that he would be applying for.

Sincerely,

Robert Goble
CEO
